

AMERICAN FILTRATION & SEPARATIONS SOCIETY

MAY 1-3 • GALT HOUSE HOTEL • LOUISVILLE, KENTUCKY

Prof. George Chase

Currently Emeritus Professor of Chemical Engineering at the University of Akron. Taught chemical engineering 1985-2021. Served as Director of the Coalescence Filtration Nanofiber Consortium (CFNC) 1997-2021. Served as Chair of the American Filtration and Separations (AFS) Society 1995 and 2002. Served on AFS board of directors for three terms between 1997 and 2020. Areas of research include filtration, nanofibers, coalescence filtration, flows through porous media, and multiphase continuum theory.
