

AMERICAN FILTRATION & SEPARATIONS SOCIETY

MAY 1-3 • GALT HOUSE HOTEL • LOUISVILLE, KENTUCKY

**Margarita Luis**

**Pall Corporation**

With over 40 years of experience in the chemical and petrochemical industries, Margarita has provided value added solutions to thousands of customers globally. She has expertise in industrial applications, regenerable systems, bulk filtration, acid gas removal, catalyst recovery, final product polishing and others. With her previous roles in Filtration Technical Support and troubleshooting, she works with clients to implement optimal solutions to meet specifications. She works to educate customers on filtration fundamentals and best practices for selecting particle filters and coalescers. Optimizing plant processes, reduction of waste and reduction in energy consumption results in improved plant performance, meeting sustainability goals and profitability targets. Margarita is focused on working with licensors and end user clients on implementation of sustainable processes, products and specifications for the industry. She holds a B.A. in Chemistry from Goucher College and lives on Long Island, NY.
