

APRIL 8-10 • HOUSTON MARRIOTT WESTCHASE • HOUSTON, TX

Abstract Submission Categories

Liquid Track

- Innovation and Sustainability
- Water/Wastewater Technology
- Filter Media
- Fundamentals, Modeling, and Digitalization
- Filter and Filter Media Testing
- Industrial Process and Design
- Separation
- Filter Materials
- Micro Plastics
- Life Cycle Assessment
- Industrial Filtration
- Plastic Recycling
- PFAS
- Other

Air/Gas Track

- Nanofibers
- Indoor Air Quality – health-related issues
- Filter Materials
- Process Technology
- Molecular Filtration
- Exhaust Emissions
- Non-Exhaust Emissions
- Fuel Gas
- Hydrogen
- Filter Media and Digitalization
- Other

Energy Track

- Fuels
- Carbon Capture
- Green Energy
- Hydrogen
- Renewables/ Renewable Energy
- Water and Chemicals
- Life Cycle Assessment
- Sustainability
- Other

Prof. Chase Track

- Fundamental research for filtration and separation
- Simulation and modeling
- Regulations like PFAS that affect filtration
- Other
